

Professor Keith Jackson

Graduating with a degree in Mechanical Engineering from the University of Leeds, Keith spent the first five years of his career as a design engineer for Jaguar Cars. After a year of voluntary work in Africa, he returned to sunny Aberdeen to study for an MSc in Biomedical Engineering. He has more than thirty years of experience of new product development, precision manufacture and international business growth. He is a Chartered Director, a Chartered Mechanical Engineer and a Fellow of both the Institute of Directors and the Institution of Mechanical Engineers. As visiting Professor at the University of Sheffield, Keith is inspiring the next generation of engineers and business leaders.

Keith is a Non-Executive Director of Medilink and D4D Limited. He is Chairman of the IoD in South Yorkshire and a Member of the Cutlers Company since 2014.

Keith is passionate about the successful market introduction of innovative products, British technical excellence and exporting World-class products manufactured here in Sheffield.
